

# Internship Program

## Introduction

WMMIAEC takes pride in helping to develop young professionals by periodically partnering with firms to employ interns for varying periods of time. WMMIAEC believes that by providing challenging, fulfilling internships, interns are able to get a better picture of career options and can tailor their studies to an employer's needs in anticipation of post-graduation employment. The consortium believes that these relationships are beneficial for all interested parties because the firms learn as much from the interns as the interns learn from our participating firms.

## Internship Positions Available

WMMIAEC participating firms offer internships whenever possible; however, there are no set time periods for the internships. Internships are offered as participating firms workloads permit and are offered in most areas of the participating firms.

## General Information

The participating firms will work with the intern to determine hours of employment. Internships can be offered at any time of the year and can be for varying lengths of time. All interns are subject to the applicable participating firms' employee rules per their Employee Handbook.

## Application Procedure

Candidates must submit a resume, with cover letter, to WMMIAEC. Some internship positions require additional application items, such as a writing sample or portfolio displaying work samples.

## Application Deadline

Not Applicable
